

अखिल भारतीय तकनीकी शिक्षा परिषद् All India Council for Technical Education

To : Paavai College of Engineering

We appreciate you uploading your course syllabus to the AICTE platform. Your uploaded document is now ready to receive the final course Mapping Score. Your overall mapping percentage is **80%**. Your submitted document was compared with the AICTE standard course curriculum, here it determines a list of topics matched with the AICTE modeled course or not. To view a comprehensive analysis, visit the website and log in using your registered credentials.

Suggestions:

- 1) Involve Stack Holders like Alumni, Acanmeis from the reputed institutes, and technical people from the industry.
- 2) Invite the industry people on the Board of studies for framing the contact hours of various courses, review and update the content from time to time, introduce new courses, etc.
- 3) All the universities wanted to ensure their engineering programs are relevant to 21st-century technology and wanted to establish (or maintain) an international reputation for high-quality, professionally-focused graduates.
- 4) Programmes include major electives, which allow students to obtain knowledge of state-of-the-art technology.
eg:- Artificial intelligence, computer crime, full stack development, hacking, cloud computing, Block Chain, Internet of things (IoT)
- 5) Start Academies on the Campus.
eg:- Amazon web services (AWS), EC Council

Thank You
